

M.S. RAMAIAH INSTITUTE OF TECHNOLOGY
(AUTONOMOUS INSTITUTE, AFFILIATED TO VTU)
BANGALORE-560054

SEMESTER END EXAMINATIONS – June/July 2024

Course: B.E.

Subject: Computer Aided Engineering Drawing

Subject code: MELC28

Semester: I

Max. marks: 50

Duration: 3 Hrs

Instructions to the Candidates:

- Answer one full question from each unit.
- Draw Solutions using pencil and scale to the dimensions.
- Answer Unit-1 questions in sketch work only, no computer solution is needed
- For Unit-2 & Unit-3, submit both sketch work and computer solutions

Q.No.	UNIT – I	Marks
1.	A square lamina of 40 mm side rests on one of its sides on HP. The lamina makes 30° to HP and the side on which it rests makes 45° to VP. Draw its projections.	10
2.	A square pyramid 35 mm base side and height 55 mm rests with its base on HP with one of the base edge parallel to VP. It is cut by a cutting plane perpendicular to VP and inclined to HP at 40° and bisect the axis. Draw the development of truncated pyramid.	10
	UNIT – II	
3.	A pentagonal prism 30 mm sides of base and 50 mm axis length rests on HP on one of its corners of the base such that the two base edges containing the corner on which it rests make equal inclinations with HP. Draw the projections of the prism when the axis of the prism is inclined to HP at 40° and appears to be inclined to VP at 45°.	20
4.	Hexagonal pyramid 25 mm sides of base and 50 mm axis length rests on HP on one of its edges of the base which is inclined to VP at 30°. Draw the projection of the pyramid when the axis is inclined to HP at 45°.	20
	UNIT – III	
5.	A regular pentagonal prism of base edges 30 mm and axis 60 mm is mounted centrally over a cylindrical block of 80 mm diameter and 25 mm thick. Draw isometric projection of the combined solids.	20
6.	A sphere of diameter 45 mm rests centrally over a frustum of cone of base diameter 60 mm, top diameter 40 mm and height 60 mm. Draw its isometric projections.	20
