- Drafting effective Resume/Curriculum Vitae (CV)
- Writing formal Email

INTRODUCTION TO LISTENING

Time Spent Communicating

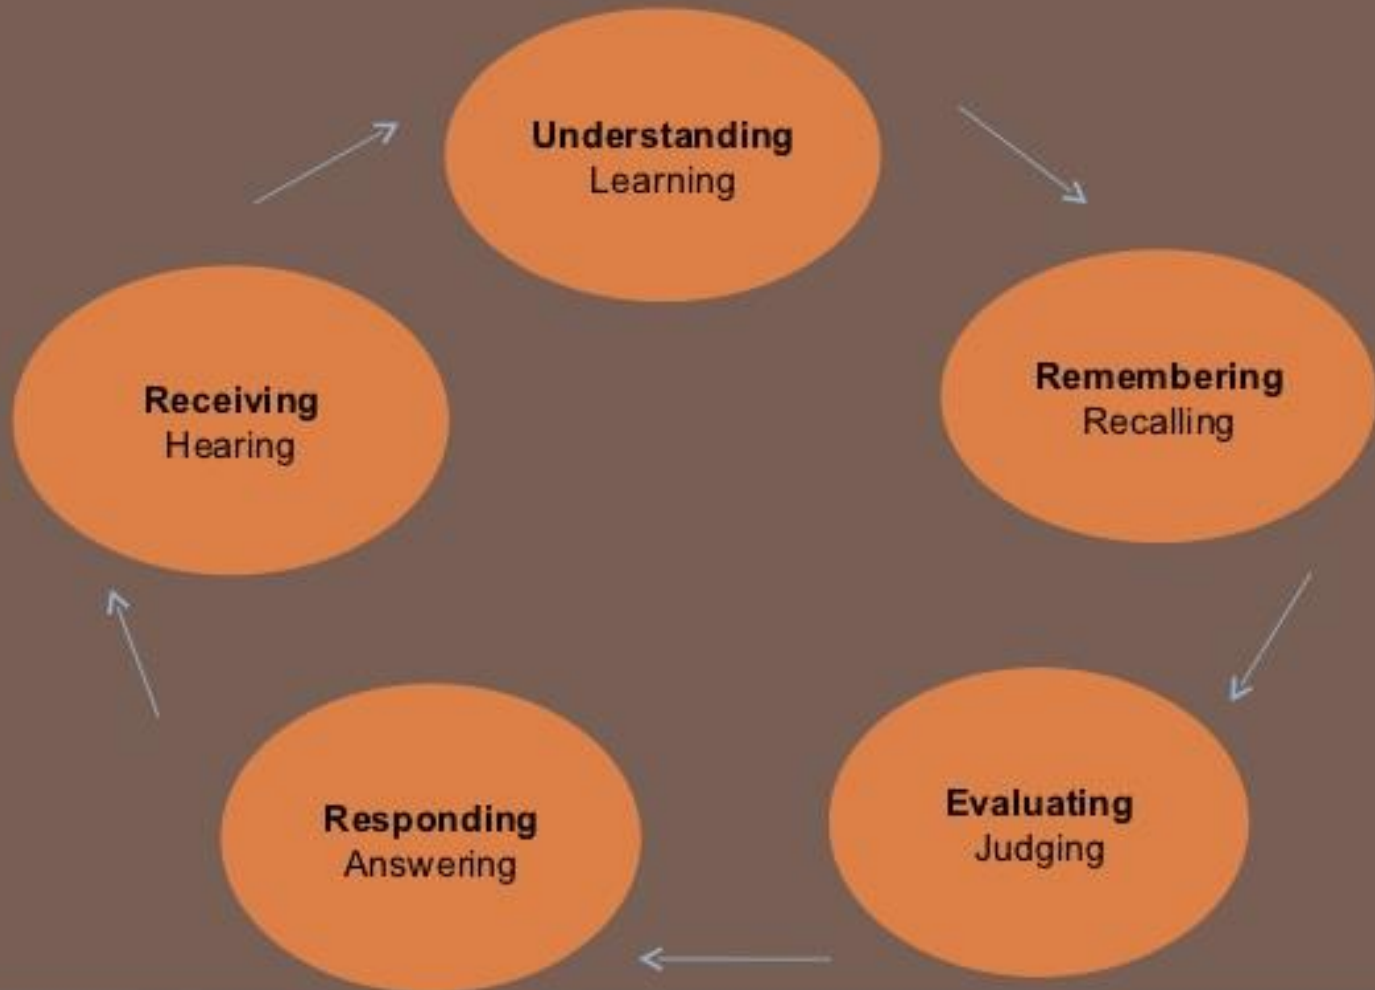

Listening

the process of receiving, constructing meaning from, and responding to a spoken and/ or non-verbal message
(International Reading Association)

∞ Hearing is always occurring, most of the time subconsciously. Listening is the interpretative action taken by the listener in order to understand and potentially make meaning out of the sound waves.

PROCESS OF LISTENING

Answer the following questions by choosing correct options giving below.

1. Which is true?

- a) Listening and hearing are remarkably similar.
- b) It is possible to hear without listening.
- c) Listening is physical; hearing is psychological.
- d) It is possible to listen without hearing.

2. Which is true?

- a) Listening is a natural process.
- b) Listening requires effort.
- c) All listeners receive the same message.
- d) All of these are true.

3. Listening is poor when

- a) We don't expend the effort.
- b) We experience message overload.
- c) We experience psychological noise.
- d) All of these are correct.

4. Which of these is not a step in the listening process?

- a) Remembering
- b) Receiving
- c) Misinterpreting
- d) Responding

5. Which of these is the first step in the listening process?

- a) Stop talking
- b) Receiving
- c) Interpreting
- d) Responding

6. _____ is the last step of the listening process.

- a) Receiving b) Interpreting
- c) Responding d) Stop talking

7. Which of these is not a type of listening?

- a) Appreciative listening b) Deep listening
- c) Critical listening d) Comprehensive listening

8. Which of these types of listening is followed by skilled listeners?

- a) Focused listening b) Critical or Evaluative listening
- c) Attentive listening d) Empathetic listening

9. In which of these, the listener puts himself in place of the speaker?

- a) Focused listening b) Evaluative listening
- c) Attentive listening d) Empathetic listening

10. Generally people speak between 100 and 140 words a minute, but we are capable of understanding speech at _____ words per minute.

- a) 600 b) 200 c) 750 d) 1,500

Answer

- 1.B. It is possible to hear without listening.
- 2.B. Listening requires effort.
- 3.D. All of these are correct.
- 4.C. Misinterpreting
- 5.A. Stop talking
- 6.C. Responding
- 7.C. Critical listening
- 8.B. Critical or Evaluative listening
- 9.D. Empathetic listening
- 10.A. 600 words

Types of Listening

Active Listening

Passive Listening

1. Discriminative Listening

2. Comprehensive Listening

3. Therapeutic Listening

4. Critical Listening

5. Appreciative Listening.

6. Empathetic Listening.

Discriminative Listening

- As the name it self suggests, discrimination listening is the most basic type of listening where by the different between the sound is identified.
- By being sensitive to change in the speakers rate volume ,force ,pitch and emphasis the informative listener can detect even minute and minor meaning of difference in meaning

Comprehensive Listening

Listening to fully understand the message of speaker: Example, Classroom lecture or directions to find something.

Therapeutic Listening

- ▶ Developed by Occupational Therapists Sheila Frick and Colleen Hacker
- ▶ **Therapeutic Listening** is an **evidence-based** auditory intervention intended to support individuals who experience challenges with **sensory processing dysfunction, listening, attention, and communication**

Overview of Therapeutic Listening

- Listening requires attention and connects us with the outer world
- The auditory and vestibular systems - inextricably linked and facilitate integration of other sensory systems
- Therapeutic Listening/Listening with the Whole Body works on 4 areas:
 1. Orientation, regulation, and sensory modulation
 2. Space/time
 3. Core/praxis
 4. Connection, engagement, and communication

Critical Listening

The goal is to understand and evaluate the meaning of the logic of the arguments, the strength of evidence, the validity of the conclusion, the speakers motives and intentions.

Appreciative Listening

-listening for pleasure and enjoyment, as when we listen to music, to a comedy routine, or to an entertaining speech

What is Empathetic Listening?

Empathic listening is when one listens with the intent to understand how the speaker *feels*; in addition to understanding his or her ideas

Showing empathy involves identifying with a person's emotions and situation; even if not in agreement with them

Difference between Active and Passive listening.

Active listening	Passive listening
Is a cognitive purpose.	No cognitive purpose.
Need to comprehension.	Need not necessarily comprehend.
Paraphrasing is required.	No paraphrasing is required.
Questions can be asked.	No questions can be asked.
Exhibit non-verbal responses.	No non-verbal signals.

Difference between Active and Passive listeners.

ACTIVE LISTENERS: The listener participates fully in the communication process. Listener listens attentively, provide feedback, and strive to understand and remember messages.

- They **focus on the content** as well the **manner** in which it is delivered. This means that they will **take note of the verbal content** along with its nonverbal subtexts.
- They **will not hesitate to seek clarifications**, ask leading questions, show their approval by nodding head, and summarize to clearly indicate that they fully follow the speaker.
- The active listeners are quiet **sensitive towards the feelings** of others; they understand the mood of the audience.
- They **show empathy** and make the audience or the other person cared for. Once the audience gets the feeling that they are being cared for, they will devote themselves fully to the communication process.

PASSIVE LISTENERS: The listener **does not actively participate** in interactions. They think they can absorb information even when they do not contribute to the interaction. They place the responsibility for successful communication on the speaker.

- Passive listeners exhibit exactly the **opposite behavioristic traits** of active listeners.
- They pay attention only to partial message and **lack of sensitivity** to the nuances, inner meanings, nonverbal subtexts involved in communication.
- They allow someone to speak, without **interrupting or seeking clarifications**.
- They **do not make notes**, nod their head in approval, maintain eye contact and keep themselves idle.
- Passive listeners who accept **not evaluate**.
- Passive listener who **suspends judgment** and just listens.

BARRIERS TO LISTENING

- 1.Excessive Talking
- 2.Prejudice
- 3.Distractions
- 4.Misunderstanding
- 5.Interrupting
- 6.Fake Attention
- 7.Bringing in Emotions
- 8.Noise
- 9.Fear
10. Expecting others to share your personal Beliefs and Values

Answer the following questions by choosing correct options giving below.

1. Which of these should be avoided for effective listening?

- a) Pre-listening analysis
- b) Listening to structured talks
- c) Team listening
- d) Predicting

2. In which of these does the listener pick up special features of the speech?

- a) Listening in conversational interaction
- b) Listening to structured talks
- c) Predicting
- d) Team listening

3. A well organized talk is a ___ talk.

- a) Short
- b) long
- c) Random
- d) structured

4 Which of these should be avoided in pre-listening analysis?

- a) Mental discipline
- b) Concentration
- c) Prejudices
- d) Patience

5. Predicting' is the technique to forecast what the speaker will say.

- a) True
- b) False

6. In which of these, should the listener be able to make connections between different segments of the speech?

- a) Listening to structured talks b) Links between parts of the speech
- c) Team listening d) Predicting

7. Which of these is based of effective listening?

- a) Note taking b) Notice writing
- c) Letter writing d) Predicting

8. Which of these should be avoided while note taking?

- a) Concentration b) Evaluation
- c) Listening d) Using phrases

9. Which of these is not a type of text for reading?

- a) Reference material b) Chats
- c) Scientific text d) Technical text

10. Which of these is not a deterrent to the listening process?

- a) Lack of interest c) Confidence
- b) Ego d) Fear

Answer

1.D. Predicting

2.A. Listening in conversational interaction

3.D. structured

4.C. Prejudices

5.A. True

Improvising Listening Skills

- Hearing or Receiving
- Understanding (Comprehension)
- Remembering
- Evaluating
- Feedback
- Slow our listening down
- Pay attention

Answer the following questions by choosing correct options giving below.

1. Which of these is not a barrier to listening?

- a) Physical barrier b) Cultural barrier
- c) Linguistic barrier d) Written barrier

2. Which is the main barrier to listening?

- a) Physical barrier b) Linguistic barrier
- c) Cultural barrier d) Physiological barrier

3. Which of these is not a physiological barrier?

- a) Fear b) Different perception
- c) Gel effect d) Halo effect

4. Which of these is based on faith?

- a) Fear b) Halo effect
- c) Emotions d) Different perception

5. When people take extreme positions what is it called?

- a) Fear b) Halo effect
- c) Emotions d) Polarization

6. Which of these occur because of difference in language?

- a) Physical barriers b) Linguistic barriers
- c) Cultural barriers d) Speech decoding

7. Barriers which are caused because of different meanings of a word to different people is called ____

- a) Different perception b) semantic distortions
- c) Physical barriers d) cultural barriers

8. Which of these barriers occur when people belong to different religious backgrounds?

- a) Physical barriers b) Linguistic barriers
- c) Cultural barriers d) Speech decoding

9. Who among these bow down to greet?

- a) Japanese b) Americans
- c) Indians d) French

10. Which of these is not a step in speech decoding?

- a) Listening b) Writing
- c) Translating d) Understanding

Answer

1.D. Written barrier

2.A. Physical barrier

3.C. Gel effect

4.B. Halo effect

5.D. Polarization

READING SKILLS

Reading Comprehension

WHAT IS READING ??

- ☐ Reading Is A Complex cognitive Process Of Decoding Symbols In Order To Construct Or Derive Meaning.
- ☐ The Reading Process Requires Continuous Practice, Development, And Refinement.

Contd ..

- ❑ Reading is a fundamental part of everyday living. Reading enables us to interact and understand the world around us.
- ❑ Readers use morpheme, semantics, syntax and context clues to identify the meaning of unknown words

READING TECHNIQUES

1. **Skimming:** Skimming of a lesson, means **gathering together salient facts** contained in it. Skimming of a prose, paragraph means going through it and **collecting main points contained therein**. Surely the reader is able to take out the best contained there in the lesson or the paragraph.
 - Skimming is **used to get the gist of a content** in a textbook to decide whether it is useful and should therefore be read slowly and more detail.
 - **Purpose:** The practice of skimming is very important for senior students. It gives them a lot of confidence. The main purpose of the person is to **assemble the main things or ideas** contained therein. **EX: Reading notes, Newspaper, Magazine.**
 - **Process of Skimming:**
 - Reading or glancing through quickly.
 - Helps in the rapid reading of short, simple, light reading materials.
 - To get a rough idea of what the book is about.
 - Involves: Pre-reading, Reading, Reviewing.
 - Imagine your eyes as magnets; move them fast to pick only the keywords/main points (usually at the first; middle, last sentence).

2. Scanning: is used to obtain a specific information from a piece of text for example, to find a particular number in a telephone directory.

Meaning: Scanning of a book or a paragraph means **collecting detained information** contained in the subject matter.

Example: Checking a number in a dictionary; training timing, historical events; birth date, etc.

Purpose: Scanning of materials is recommended for the senior students. It teaches them to call a spade. It also develops the habit of working hard. It helps them in developing a scientific attitude in teaching and understanding things which is very important in life. They tend to read the subject matter continuously and carefully.

Process of Scanning:

- Reading a text quickly to find exact information. E.g. figures or names. Use 'WH' questions.
- Locate key facts.
- Look for specific bits of information.
- The reader goes through the subject matter with searching books.
- He/she examines everything very closely.
- So much that the reader is not allowed to ignore. Even a single difficult word contained therein. In scanning everything good or bad is pointed out.
- Everything objectively and in a very scientific manner is highlighted.

TYPES OF READING

Intensive and extensive reading:

- **Intensive reading:** If the purpose is to read a text in great detail or carefully intensive reading is required. Generally, textbooks called readers concentrate on intensive or detailed reading. Comprehensions, exercises on vocabulary, grammar, speaking and punctuation are set to make the student read the text carefully.
- **Ex: Reading notes for test preparation.**
- **Extensive reading:** On free reading for pleasure for interest in the subject matter or for the acquisition of information. It provides an encounter with language which is essential for the mastery of the language.
- **Ex: Reading novel for pleasure.**

Tips for Effective Reading

Seven Strategies of Highly Effective Readers

- **ACTIVATING**
- **INFERRING**
- **MONITORING-CLARIFYING**
- **QUESTIONING**
- **SEARCHING-SELECTING**
- **SUMMARIZING**
- **VISUALIZING-ORGANIZING**

TIPS FOR ACTIVE READING

- Be Selective about what you read?
- **How to select?**
- Focus on the question
- **Before you read, establish what you already know.**
- **BREAK READING INTO MANAGEABLE SEGMENTS**

Passage:

Some years ago I had the privilege of meeting the world's oldest man. At least he said he was. And he was. And he was so dogmatic about it that the promoters of a cartoon strip that specialized in unbelievable oddities brought the old man up to New York from his native Columbia, to have him examined by a team of doctors at the Cornell Medical Centre. He was an Indian, he was four feet four inches high, he had an alligator-hide complexion and a tendency to swing with his right whenever he passed from one medico to another. He said he was 167, born the same years as the American constitution. When the name of George Washington was suggested to him, to help him fix his generation, he said he remembered the man well. But he resented coming all the way to New York. He wanted to be left alone to go about the business, which at that time was the business of looking for a sixth wife to comfort him in his approaching old age!

Read the passage and answer the following questions that follow.

1. The old man was 'dogmatic' about the fact that ____

- A. he was four feet four inches tall.
- B. he was the world's oldest living man.
- C. he belonged to Columbia.
- D. he had an alligator-hide complexion.

2. The cartoon strip people got interested in him because_____

- A. he was comical creature
- B. they wanted to feature him in a cartoon strip.
- C. a person surviving at that age was odd and unbelievable.
- D. he had the tendency of swinging with his right.

3. The old man claimed that the Americans gave themselves a Constitution__

- A. before he was born
- B. in the year of George Washington's birth
- C. two centuries ago
- D. One hundred and sixty seven years ago.

4. George Washington's name was mentioned to the old man ____

- A. to teach him a bit of history.
- B. To know whether he had personal equation with Washington.
- C. to make fun of his advanced age.
- D. to determine his age.

5. The old man did not like being brought to New York because__

- A. At that time he was busy looking for a sixth wife.
- B. he didn't like travelling much.
- C. he didn't like New York as a city.
- D. he preferred to be left alone in his native village.

Answers- Passage:

B. He was the world's oldest living man.

C. A person surviving at that age was odd and unbelievable.

D. One hundred and sixty seven years ago.

D. To determine his age.

A. At that time he was busy looking for a sixth wife.

Job Application

Drafting effective Resume/Curriculum Vitae
(CV)

Writing formal Email

A **letter** is a **written** message that can be handwritten or printed on paper. It is usually sent to the recipient via mail or post in an envelope, although this is not a requirement as such. Any such message that is transferred via post is a **letter**, a **written** conversation between two parties.

Types of Letters

- **Formal Letter**
- **Informal Letter**
- **Business Letter**
- **Official Letter**
- **Social Letter**
- **Circular Letter**
- **Employment Letters**

Drafting job Application (Cover letter) and Resume

Rakesh Sharma MSR Nagar Bangalore. Rsharma@hotmail.com MrsMattyJenkyns HR Manager Manyatha Tech Park Bangalore. Respected Sir/Madam, Subject: Application for the post of Software Engineer.	20th January 2023 Tries to find the name of the appropriate person to write to if possible.
I am looking for a placement within a software industry. I am writing to you as I understand that IBM may have appropriate vacancies available. I have a strong interest in software programming which I understand are predominantly carried out at this company. As I live only 5 miles from your site, travel and accommodation would not be a problem for me.	States the job she's applying for. States when he/she's available to start and end the placement.
I first became interested in the software programming from my college days learning. Since then, discussion with my careers adviser has confirmed my decision to aim for a career in this field.	Says why she's interested in the type of work.
Through my degree course, I achieved 68% in my final year examinations. During my college studies, I have also been able to utilize my skills in working with people through a variety of vacation jobs.	Summarizes her strengths and how they might be an advantage to the organization. Relates her skills to the job.
I would be most grateful if you could consider me for any suitable positions. I will be available for interview at any time and am at my home address in Bangalore from late December onwards. Please find enclosed my CV where you will find further information. Yours sincerely Rakesh Sharma (Signature) Enclosures: 1.Resume 2.Marks cards	Mentions dates she would be available for interview. Thanks the employer and mentions an enclosed CV.

RESUME

VS

**CURRICULUM
VITAE (CV)**

VS

BIODATA

The major difference between Bio-data, curriculum vitae (CV), and Resume:

Bio-data is short form of biographical data. It implies a shortened version of the autobiography.

- It follows a **chronological order**, it starts with the first thing that is, name, father's name, date of birth, and so on.
- Past information is collected to predict future performance.
- The bio-data includes **physical attributes** such as age, height, weight, even in some cases, the colour of hair, skin, and eye.
- It is combined with the latest passport size photograph of the candidate. The usage of Bio-data functionally originates from the British and is practiced commonly in India.

Curriculum vitae: CV is short form of curriculum vitae, a Latin phrase, which means **“the course of life.”**

- It is taken to mean one’s career graph or career progress.
- The focus here is more on the career.
- It is an overview of a person’s experience and other qualifications.
- It is a long synoptic account of the candidate’s professional experience, qualifications, and some personal information.
- Although some personal information is added, the larger perspective is on career progress.
- The emphasis of the information changes according to the particular position applied.

Résumé: Resume is typically American, in which, personal, family, social, and religious backgrounds are ignored.

- Résumé, meaning summary in **French, is a short descriptive account of one’s academic and work history.**
- The life details are very minimal, almost nothing in this.
- Résumé is a document containing a focused sketch of relevant job experience and education.

EDUCATION

M.S. Ramaiah Institute of Technology
Bachelor in Engineering in Electronics and communication
CGPA - 9.26/10

2019 – present
Bengaluru

St. John's School
High School

2016
Chandauli

Sunbeam English School
Intermediate

2018
Varanasi

SKILLS

Languages (C, C++, Python, Solidity) • Frameworks (Flutter, Arduino, Smart Contracts) • Technologies (Blockchain, IOT, NFTs)
Database (MYSQL) • Data Structures and Algorithms • Machine and Deep Learning • Operating Systems

EXPERIENCE

Development Intern

10/2021 – 02/2022
Bengaluru

Curl Analytics

- Developed Sattva Platform
- Designed the **blockchain** part of the project
- Represented Curl Analytics in **SNI Winter Hackathon**

PROJECTS

Sattva Platform 📄

2022

Solidity, Blockchain, Polygon, JS, React, Python, Flask, MongoDB

- Designed a Dapp based on **ERC721-Smart Contract** which creates **NFTs** of the image and uploads it on **Opensea in a single click**
- Image is uploaded via Twitter, AI camera, and Professional Photographers.
- Object Detection removes photos that can cause a privacy breach.
- Generative Adversarial Network (**GAN**) converts nature images to art.
- The art image is tokenized into **NFTs** using **ERC-721 Smart Contract** which is sold to generate revenue.

Garuda- Drone Detection and Management System

2022

Python, JS, Flutter, Dart, Firebase, Pytorch, Tensorflow

- It is a **neconomic** solution which uses **CCTV** cameras and is very useful to protect our establishments and sensitive areas.
- Detection and classification of drones in real time, by the use of **Computer Vision** models (**YOLOv4**)
- The model detects drones among other flying objects like kites, birds etc. and tracks their motion (approaching/receding/lateral).
- A **Management System** along with **smartphone app** is developed to enable remote monitoring, real time alerting and record management of previous drone spottings

Smart Parking System 📄

2020

Arduino, C++, IOT, Firebase

- **Smart Parking System** is the future of parking.
- It can be **installed in any parking space** around the globe.
- It manages a parking space **without human interference**.
- **Ultrasonic sensors** can detect the presence of a car in individual parking spaces.
- Real-time data is stored in **Firebase**.
- A screen displays the **real-time status** of the parking lot

ACHIEVEMENTS

Subject: Invitation.

Dear Parents,

Hope you all are well.

I am very glad to invite you for the Annual college fest-2023 which is going to be held on January 21st 2023 in our college. It's been really long since caught up, so I think its great occasion to have lots of fun and love.

The annual college fest will be so grand and it showcases our talent as well, please be with us and encourage.

Hope to hear from you soon.

Best regards

XYZ
